

Southwest Wisconsin Chapter Update

Executive Meeting

January 11, 2012

Stevens Point, WI

Our Chapter and the Southeast Chapter co-hosted the Statewide Meeting in early March in Wisconsin Dells. The theme of this meeting was Managing Early Successional Forests for Timber and Wildlife and it was planned jointly with the Wisconsin Chapter of the Wildlife Society.

The SW Chapter hosted a field tour at Goose Lake Wildlife Area in eastern Dane County on Tuesday, October 4. We viewed a recent timber harvest and discussed oak management, wildlife and endangered resource concerns and BMPs. Local DNR staff from forestry, wildlife parks and endangered resources were also invited.

Respectfully submitted,

Mary Ann Buenzow

SW Chapter Chair
