

Save the date! September 12-13, 2018

Wisconsin Society of American Foresters Statewide Meeting: “Innovation in Silviculture: The Art and The Science”

Where: Stoney Creek Hotel & Conference Center
Rothschild, WI

When: Sept 12-13, 2018

None of us have all the answers but we can learn from the experience, research, and insights of others. Innovation in forest management happens when foresters recognize problems and are willing to try something new. Join us Sept 12 & 13 in Rothschild as we explore innovation in silviculture and what current management and research are telling us about the state of forestry. Wisconsin SAF is sponsoring a 1 ½ day meeting and field tour to explore this question.

Come prepared for great discussions and an exciting time! SAF, SFI, and Wildlife Society CFE credits will be available. More details and registration information to follow soon.

“The art of land-doctoring is being practiced with vigor, but the science of land health is a job for the future”.

Aldo Leopold 1941
