

Managing Today's Forests for Future Risks

Sponsored by the Southwest Wisconsin Society of American Foresters

When: Wednesday, February 21, 12:30 am to 5:00 pm

Where: The Shed (<http://shedspringgreen.com/>), Spring Green, WI

What: We are all learning about the potential risks associated with forest management in a changing climate. What can we as foresters do about it? The Southwest Wisconsin SAF Chapter is sponsoring this half-day meeting to explore the question.

Who: Foresters, landowners, loggers, wildlife biologists, ecologists and resource managers

Why: Build experience with new forest management tools, understand what can be done to improve the "resistance" or "resilience" of a forest, decide when "transition" is a better option.

Agenda

12:30 pm Registration

1:00 pm Welcome (housekeeping and introductions)

1:15 pm

The Adaptive Silviculture for Climate Change (ASCC) Project

Courtney Peterson

Colorado State University, Fort Collins, CO

2:00 pm

2:15 pm

SW WI SAF Chapter Review / Chapter Activities Survey

Assisted Migration and Genetic Options for Adapting to Climate Change

Paul Berrang

Regional geneticist, USDA Forest Service, Milwaukee, WI

3:00 pm

3:15 pm

Break: brownies, coffee, and beer (why not)

Practical Adaptation Tools for Foresters

Todd Ontl

Northern Institute for Applied Climate Science (NIACS)

Houghton, MI

4:00 pm

Wrap Up: Chapter Activities Survey Results

4:15 pm

Social Hour

Registration: by February 16, contact Brad Hutnik to reserve your spot:

bradley.hutnik@wi.gov

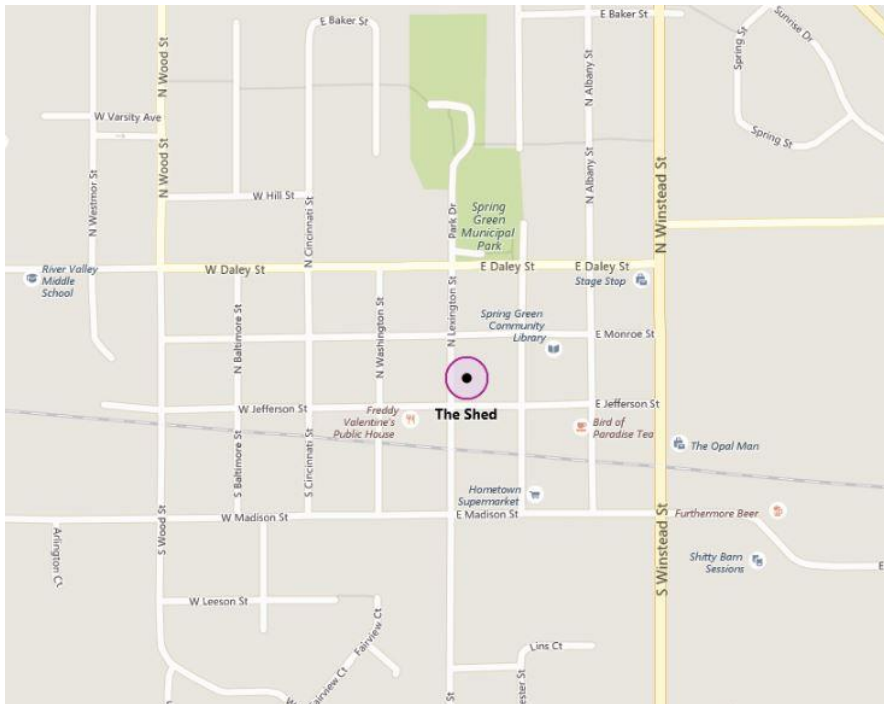

(608) 574-5642

Cost: SAF Members and Students	No Fee
Non-SAF members	\$10.00

Registration is payable by cash or check to **SW Wisconsin Chapter SAF**

This training has been approved for:

- 2.5 credits: Society of American Foresters (SAF) Certified Forester CFE
- 2.5 credits: The Wildlife Society (TWS) Certified Wildlife Biologist Renewal/Professional Development

The Shed address:

123 N Lexington St
Spring Green, WI 53588
(608) 588-9049
